European Journal of Orthodontics

Volume 24 (2002) Indices

For abstracts, page numbers are given first followed by the abstract number in parentheses

Aasen, T.
Post-orthodontic stability 420 (1)

Abeleira-Pazos, M. T., Aneiros-Fernández, P. and Gude-Sampedro, F.
Reproducibility of computerized cephalometric analysis of frontal radiographs 530 (1)

Abou El-Ezz, A. and Labib, A.
A comprehensive evaluation of cyanoacrylate adhesive as an orthodontic bonding agent 530 (2)

Abu Alhaija, E. S. J., Al-Wahadni, A. M. S. and Al-Omari, M. A. O.
Uvulo-glosso-pharyngeal dimensions in subjects with β-thalassaemia major 699

Abu Alhaija, E. S. J., Hattab, F. N. and Al-Omari, M. A. O.
Cephalometric measurements and facial deformities in subjects with β-thalassaemia major 9

Abuhijleh, E., Pakir, M. H. and Toygar, U.
Comparison of craniofacial morphology in unilateral and bilateral cleft lip and palate patients 530 (3)

Acar, A., Alcan, T. and Erverdi, N.
Evaluation of the relationship between the anterior component of occlusal force and post-retention crowding 420 (2)

Akçam, M. O. and Takada, K.
Fuzzy modelling for selecting headgear types 99

Al Beirouty, R. T., Kuijpers-Jagtman, A. M. and Katsaros, C.
The quality of the Steiner diagnostic prediction analysis 420 (3)

Alarashi, M., Franchi, L. and Tollaro, I.
Dentoskeletal transverse features of Class II malocclusions—a postero-anterior cephalometric evaluation 530 (4)

Allais, D., Melsen, B. and Baelum, V.
Does labial movement of lower incisors influence the level of the gingival margin? 531 (5)

Amini, F. and Khoei, M.
Cephalometric evaluation of dentoskeletal changes concurrent to maxillary splint with high pull headgear 531 (6)

Apajalahti, S., Sorsa, T. and Ingman, T.
Matrix metalloproteinase -2, -8, -9, and -13 in gingival crevicular fluid of short root anomaly patients 532 (7)

Apel Eriksson, K., Omblus, J. and Malmgren, O.
Treatment and post-treatment effects of maxillary protraction 532 (8)

Aras, A.
Vertical changes following orthodontic extraction treatment in skeletal open bite subjects 407

Arman Akgül, A., Gökalp, H. and Altuğ, Z.
The influence of extraction therapy on the eruption pattern of third molars 532 (9)

Arun, T., Agaoglu, G. and Gursoy, F.
Serum alkaline phosphatase and calcium changes during orthodontic treatment 532 (10)

Attia, K., El-Kattan, E. and Labib, A.
A comparison of three different myofunctional appliances in the treatment of Class II division 1 malocclusions 533 (11)

Axelsson, S., Kjær, I. and Storhaug, K.
Theca cranii morphology. Longitudinal cephalometric standards from 6 to 21 years of age 533 (12)

Baba, Y., Suzuki, E. Y. and Ohyama, K.
Stability after maxillary advancement in Japanese cleft patients using rigid external distraction 533 (13)

Baek, S.-H., Moon, H.-S. and Yang, W.-S.
Cleft type and Angle's classification of malocclusion in Korean cleft patients 647

Baltromejus, S., Ruf, S. and Pancherz, H.
Effective temporomandibular joint growth and chin position changes: Activator versus Herbst treatment. A cephalometric roentgenographic study 627

Barbato, E., Proietti, D. and Leonardi, R.
The eruptive pattern of upper canines: a preliminary radiographic study 534 (15)

Barbato, E., Vozza, I. and Cianfriglia, C.
Hypersensitivity to orthodontic materials: comparison among patients and operators 534 (14)

Başçiftçi, F. A. and Üşümez, S.
A comparative study of extraction and non-extraction treatment on dentofacial structures 534 (16)

Basdra, E. K., Ziros, P. and Papavassiliou, A. G.
Induction of bone-specific transcription factor CbFa1 after mechanical stimulation of human periodontal ligament osteoblast-like cells 535 (17)

Battagel, J. M., Johal, A., Smith, A.-M. and Kotecha, B.
Postural variation in oropharyngeal dimensions in subjects with sleep disordered breathing: a cephalometric study 263

Bearn, D. R., Sandy, J. R. and Shaw, W. C.
Cephalometric soft tissue profile in unilateral cleft lip and palate patients 277

Becker, A., Sharabi, S. and Chaushu, S.
Maxillary tooth size variation in dentitions with palatal canine displacement 313
Beckmann, S. H. and Segner, D.
Floating norms and post-treatment overbite in open bite patients 379
Beckmann, S. H. and Segner, D.
Changes in alveolar morphology during open bite treatment and prediction of treatment result 391
Bendeus, M., Peng, J. L. and Hägg, U.
Overjet change in Class II division 1 malocclusions with functional appliance treatment—an ethnic comparison 535 (18)
Bergius, M., Berggren, U. and Broberg, A. G.
Predicting prolonged pain experiences during an orthodontic procedure 421 (4)
Berkovitz, B. K. B. and Pacy, J.
Ultrastructure of the human intra-articular disc of the temporomandibular joint 151
Binner Becktor, K., Bangstrup, M. I., Rølling, S. and Kjær, I.
Unilateral primary or secondary retention of permanent teeth, and dental malformations 205
Bıren, S., Saeed, M. Q. and Erverdi, N.
The effect of circumferential supracrestal fibrotomy on orthodontically rotated premolars 535 (19)
Bister, D., Cash, C. and Coleman, N.
Incidence of different types of facial clefts in Cambridge and their outcome 536 (20)
Bister, D., Edler, R. J., Tom, B. D. M. and Prevost, A. T.
Natural head posture—considerations of reproducibility 457
Bister, D., Young, D. and Sherriff, M.
In vitro debonding characteristics of ceramic brackets on two different ceramic surfaces 421 (5)
Bocchino, T., Cimino, R. and Farella, M.
Effects of orthognathic surgery on signs and symptoms of temporomandibular disorders: a long-term evaluation 536 (21)
Bourauel, C., Bumann, A. and Jäger, A.
Finite element simulation of the loading of mini-implants for orthodontic anchorage 536 (22)
Bourauel, C., Neumann, P. and Jäger, A.
Materials science and biomechanical analysis of current superelastic nickel titanium wires 537 (23)
Bracco, P., Castiglia, A. and Richiardi, P.
Vector analysis of temporomandibular joint muscular loading in diverse craniofacial skeletal patterns 421 (6)
Bracco, P., Castiglia, A. and Roberi, L.
Serial extractions in orthodontics: structural and functional indications 537 (24)
Bracco, P., Castroflorio, T. and Icardi, K.
Effects of an original functional appliance on masticatory muscles of temporomandibular dysfunction subjects 538 (26)
Bracco, P., Piancino, M. G. and Talpone, F.
Unilateral crossbite: electromyographic evidence of loss of masticatory muscle coordination during mastication 537 (25)
Bresin, A. and Kiliaridis, S.
Dento-skeletal adaptation after bite-raising in growing rats with different masticatory muscle capacities 223
Brin, I., Tulloch, J. F. C. and Phillips, C.
External apical root resorption in Class II malocclusions: a retrospective review of one versus two phase treatment 538 (27)
Brothag, D., Grünheid, Th. and Zentner, A.
Extraction versus non-extraction and long-term stability of the lower dental arch 538 (28)
Brusati, R.
The choice between orthodontic and surgery in borderline cases 422 (7)
Buccelli, C., Laino, A. and Quaremba, G.
Human identification in mass disaster by radiographs 539 (29)
Bumann, A., Brix, S. and Wiemer, K.
Specific temporomandibular joint findings in young patients prior to orthodontic treatment 422 (8)
Bumann, A., Wiemer, K. and Drechsler, T.
Absolute anchorage with new orthodontic mini-implants 539 (30)
Buranastidporn, B., Hisano, M. and Soma, K.
Biomechanics of the temporomandibular joint in mandibular asymmetry—finite element analysis and clinical findings 539 (31)
Burden, D., McGuinness, N. and Stevenson, M.
Predictors of root resorption in Class II division 1 malocclusions 422 (9)
Buschang, P. H. and Gandini Jr, L. G.
Mandibular skeletal growth and modelling between 10 and 15 years of age 69
Butti, A. C., Cocconi, R. and Veglia, F.
Aesthetic evaluation of the anterior limit of the dentition—a pilot study 423 (10)
Buyukyılmaz, T., Üşümez, S. and Karaman, A. I.
Effect of self-etching primers on bond strength—are they reliable? 540 (32)

Cacciafesta, V. and Sfondrini, M. F.
Clinical comparison between a plasma arc and halogen light for bracket bonding 423 (11)
Cacciafesta, V., Sfondrini, M. F., Klersy, C. and Sfondrini, G.
Polymerization with a micro-xenon light of a resin-modified glass ionomer: a shear bond strength study 15 minutes after bonding 689
Caccianiga, G. L., Baldini, A. and Papagna, R.
Orthodontic fixed appliance treatment and gingival hypertrophy: effectiveness of laser-therapy 540 (33)
Caccianiga, G. L., Ghitti, C. and Baldini, A.
Orthodontic problems in patients with Down syndrome 540 (34)
Campbell, K. A., Battagel, J. M. and Ruddock, J.
A prospective study of the management of 'sleepy snorers' with mandibular advancement splints 541 (35)
Canikliоğlu, M. C. and Öztürk, Y.
Vertical and skeletal changes in patients treated with lingual appliances 423 (12)

Carbone, G., Michelotti, A. and Vollaro, S.
Long-term masseter muscle activity in subjects with different vertical craniofacial morphologies 541 (36)
Cattaneo, P. M., Dalstra, M. and Melsen, B.
Finite element analysis of the influence of molar position on maxillary load transfer 541 (37)
Cattaneo, P. M., Dalstra, M. and Melsen, B.
The influence of material properties on finite element analysis of orthodontic load transfer 542 (38)
Cavalcanti-Adam, E. A., Shapiro, I. M. and Adams, C. S.
Integrin-mediated adhesion to biomaterials and its role in transduction of mechanical forces in bone cells 542 (39)
Ceylanoglu, C. and Küçükkeleş, N.
Evaluation of soft tissue adaptation during and after rapid palatal expansion 424 (13)
Cha, B. K., Lee, S. K. and Shim, E. Y.
A hypothetical approach to morphological mandibular changes induced by osteoarthritis of the temporomandibular joint 543 (40)
Chan, E. K. M., Darendeliler, M. A. and Kaplin, I.
Volumetric analysis of root resorption lacunae after application of controlled orthodontic forces 543 (41)
Chaushu, S., Gozal, D. and Becker, A.
Intravenous sedation: an adjunct to enable orthodontic treatment for children with disabilities 81
Chayanupatkul, A., Rabie, A. B. M. and Hägg, U.
Temporomandibular response to early and late removal of bite-jumping devices 543 (42)
Chayanupatkul, A., Rabie, A. B. M. and Hägg, U.
Bone formation in the temporomandibular joints in response to one-step and stepwise advancement 544 (43)
Chen, W., Rose, E. and Jonas, I. E.
Primary eruption disturbances of permanent teeth 544 (44)
Chew, M. T. and Koh, C. H.
Accuracy of soft tissue profile predictions in orthognathic surgery 544 (45)
Christensen, L. R.
A retrospective study of the clinical performance of aesthetic brackets 545 (46)
Cirak, F., Orhan, M. and Guray-Susumez, E.
Current trends in Turkish orthodontics 545 (47)
Ciusa, V., Marciandi, P. V. and Ferrario, V. F.
An experimental protocol for the neuromuscular assessment of post-orthodontic stability 545 (48)
Ciusa, V., Tartaglia, G. M. and Ferrario, V. F.
A longitudinal analysis of three-dimensional palatal form in healthy adults 546 (49)
Clarke, A. and Jenkins, P. M.
A measure of performance?—the efficiency factor in orthodontics 546 (50)
Cocconi, R., Lecchi, R. and Bernini, S.
Increased horizontal condylar angle in abnormal temporomandibular joints of patients with juvenile rheumatoid arthritis 546 (51)
Cocito, M. G., Meneghin, S. and Miotti, F. A.
Tongue thrust—an epidemiological analysis 547 (52)
Cornelis, M., Behets, C. and De Clerck, H.
Titanium miniscrews under continuous loading in a pig jaw: a histological study 547 (53)
Crismani, A. G., Bernhart, T., Baier, C., Bantleon, H.-P. and Kucher, G.
Chair-side procedure for connecting transpalatal arches with palatal implants 337
Crismani, A. G., Bernhart, Th. and Podesser, B.
Implants as orthodontic anchorage in the palate—a pilot study 547 (54)
Cunha, T. C. R., de Melo Castilho, J. C. and Médici, E.
Evaluation of cephalometric measurements through reproduction of tracings 548 (55)
Cunningham, S. J.
Development of a quality of life measure for orthognathic patients 424 (14)
Dalstra, M., Cattaneo, P. M. and Beckmann, F.
Synchrotron-based microtomography of alveolar supporting tissues 548 (56)
Darendeliler, M. A., Srivicharnkul, P. and Rex, T.
Effects of orthodontic forces on physical properties of root cementum 425 (15)
Daskalova, B., Janev, R. and Simonovski, N.
Morphological characteristics of skeletal open bite 549 (57)
Dastgerdi, E. V. and Heidari, A.
The effect of rapid maxillary expansion on conductive hearing loss 549 (58)
De Clerck, H., Siciliano, S. and Delatte, M.
Zygomatic and mandibular anchors: a clinical evaluation 425 (17)
De Wilde, P., Moradi Sabzevar, M. and Wehrbein, H.
The effect of chewing gum use on bond failure of fixed orthodontic appliances 549 (59)
Demir, A. and Guray, E.
The prevalence of temporomandibular dysfunction in 6–19-year old Turkish children 549 (60)
Demir, A. and Guray, E.
Bruxism and masticatory muscle pain—an epidemiological study 550 (61)
Dermaut, L.
Changes in future diagnosis and treatment planning 425 (16)
Destang, D. L. and Kerr, W. J. S.
Comparison of two maxillary retention regimes 550 (62)
Dimaggio, F. R., Colombo, A. and Ferrario, V. F.
Three-dimensional palatal size and shape in healthy children aged 4–6 years 550 (63)
Dimaggio, F. R., Dellavia, C. and Ferrario, V. F.
Two- versus three-dimensional non-invasive analysis of facial soft-tissues in 6-year-old children 426 (18)

Dobrescu Massaro, S. A. and Dorobăţ, V.
Treatment time in lingual and labial techniques 551 (64)
Doherty, U. B., Benson, P. E. and Higham, S. M.
Fluoride-releasing elastomeric ligatures assessed with the *in situ* caries model 371
Domínguez, G. C. and Vigorito, J. W.
Variations of incisors and lips in the facial profile of individuals with ideal occlusion 426 (19)
Drevensek, M. and Kozelj, V.
Sagittal skeletal relationships in unilateral cleft lip and palate children compared with a non-cleft population 551 (65)
Du, X., Hägg, U. and Rabie, A. B. M.
Effects of headgear Herbst and mandibular step-by-step advancement versus conventional Herbst appliance and maximal jumping of the mandible 167
Du, X., Hägg, U. and Rabie, A. B. M.
Skeletal treatment response related to the amount of mandibular advancement with functional appliances 551 (66)

Eberhard, D., Bantleon, H.-P. and Steger, W.
The efficacy of anterior repositioning splint therapy studied by magnetic resonance imaging 343
Edler, R., Wertheim, D. and Greenhill, D.
Comparison of radiographic and photographic measurement of mandibular asymmetry 552 (67)
Edler, R., Wertheim, D. and Greenhill, D.
Mandibular outline assessment in three groups of orthodontic patients 605
Eliades, T., Katsavrias, E. and Eliades, G.
Moisture-insensitive adhesives: reactivity with water and bond strength to wet and saliva-contaminated enamel 35
Emami, Sh. and Foroughmand, M.
Changes in lip vermilion height after orthodontic treatment 552 (68)

Farbood, M. and Showkatbaksh, R.
Treatment of a Class II division 1 vertical growth pattern with a modified functional appliance 552 (69)
